

TABLE OF CONTENTS

Preface	xiii
Plenary	
Statistication: The Quest for a Curriculum James V. Zidek, University of British Columbia, Canada	1
Questions, Answers and Statistics Terry Speed, CSIRO Division of Mathematics and Statistics, Canberra, Australia	18
Statistical Education in the Developing Countries of Africa: The Nigerian Experience J.N. Adichie, University of Nigeria, Nsukka, Nigeria	29
Is Anyone Listening Out There? Statistics and the Public William Kruskal, University of Chicago, USA	33
Session 1: Teaching Statistics (6-11) <i>Dr. Lionel Pereira-Mendoza, Memorial University of Newfoundland, Newfoundland, Canada</i>	
Chairman's Report: Teaching Statistics to Children Aged 6-11 Dr. L. Pereira-Mendoza, Memorial University of Newfoundland, Newfoundland, Canada	39
A Comparison of the Statistics Curriculum for Children aged 5-11 in Britain, Canada and the U.S.A. Dr. Lionel Pereira-Mendoza, Faculty of Education, Memorial University of Newfoundland, St. John's, Newfoundland, Canada	40
Teaching Statistics (11-18) in Italy and The Activity of the "Societa' Italiana Di Statistica" Enrica Aureli and M. Gabriella Ottaviani, Dipartimento di Statistica, Probabilita e Statistiche Applicate, Universita degli Studi "La Sapienza", Rome, Italy	46
Elementary Schools Students' Use of Strategy In Playing Microcomputer Probability Games Thomas L. Schroeder, University of Calgary, Canada	51
Probability Games George W. Bright, University of Houston, USA John G. Harvey, University of Wisconsin, USA	57
EDA in the Primary Classroom – Graphing and Concept Formation Combined Andrejs Dunkels, Department of Mathematics and Department of Teacher Education, Luleå University, Luleå, Sweden	61

Session 2: Teaching Statistics (12-18)

Mr. Peter Holmes, Centre for Statistical Education, Sheffield, England

Teaching Statistics (12-18) Peter Holmes, Centre for Statistical Education, Sheffield, England	67
A Statistics Course for All Students Aged 11-16 Peter Holmes, Centre for Statistical Education, Sheffield, England	68
How to Teach Statistical Concepts to Slow-learning Pupils Albrecht Abele, Pädagogische Hochschule Heidelberg, Federal Republic of Germany	73
Exploratory Data Analysis and the Secondary Stochastics Curriculum Rolf Biehler, Institut für Didaktik der Mathematik (IDM) Universität Bielefeld, Federal Republic of Germany	79
Using Simulation to Model Real World Problems Beth H. Bryan, Augusta College, USA	86
A Practical Approach to the Central Limit Theorem Michael J. Glencross, University of the Witwatersrand, South Africa	91
Mutually Exclusive and Independence: Unravelling Basic Misconceptions in Probability Theory I.W. Kelly, University of Saskatchewan, Canada F.W. Zwiars, Environment Canada, Canada	96
A Way of Teaching Significance Testing J.H. Durran, Winchester College, England	101
The Teaching of Statistics and Probability in the Italian Junior High School Luigi Fabbris, Statistics Department, University of Padua, Italy	106
A Curriculum of Probability and Statistic in Italian Secondary School (11-14) Perelli D'Argenzio, M.P., and F. Pesarin, School A. Vivaldi, Dosson (TV) and Department of Statistics, University of Padua, Italy	113
An Exploratory Survey of Teachers of Mathematics in the State Upper Secondary Schools in Italy: Some Results Alberto Zuliani and Francesco Sanna, Faculty of Economics, University of Rome, Italy	120
Behavioral Statistics Textbooks: Source of Myths and Misconceptions? James K. Brewer, The Florida State University, USA	127

A National Schools Statistics Competition Anne S. Hawkins, Centre for Statistical Education, Department of Mathematics, Statistics and Computing, London University Institute of Education, London, England	132
 Session 3: Initial and In-Service Training of Teachers of Statistics	
<i>Professor Claude Gaulin, Université Laval, Quebec, Canada</i>	
The Training of Brunel University Undergraduates Who Intend to Become Statistics Teachers G.W. Goodall and F.R. Jolliffe, Brunel University, England	137
Statistics and Probability in the School Mathematics Curriculum: A Review of the ASA-NCTM Quantitative Literacy Project R. Scheaffer, University of Florida, USA G. Burrill, Whitnall High School, Greenfield, Wisconsin, USA	141
Initial and In-Service Training of Teachers of Statistics: In-Service Training to Assist Junior High School Teachers to Implement a New Syllabus in Statistics Michael J. Glencross, University of the Witwatersrand, South Africa	145
The Interaction Between Teaching Practice and Theoretical Conceptions – A Cooperative Model of In-Service Training in Statistics for Mathematics Teachers (Grades 5-10) Heinz Steinbring, Institut für Didaktik der Mathematik, University of Bielefeld, Federal Republic of Germany	150
 Session 4: Use of Computers in Teaching Statistics	
<i>Professor Donald Barr, Naval Postgraduate School, Monterey, California, USA</i>	
Use of Computers in Teaching Statistics Donald R. Barr, Naval Postgraduate School, Monterey, California, USA	157
Using Microcomputers in Teaching Time Series Analysis D. Alan Jones, University College of Wales, Aberystwyth, Wales	158
The Role of the Computer in the Teaching of Statistics Tarmo Pukkila and Simo Putanen, University of Tampere, Finland	163
Teaching Data Analysis Using Interactive APL-Based Graphics Packages I.G. O'Muircheartaigh, University College, Galway, Ireland	168

The Challenge of Computers in Today's Statistical Education G.K. Kanji, Department of Applied Statistics and Operational Research, Sheffield City Polytechnic, Sheffield, England R.R. Harris, School of Mathematics and Statistics, Lancashire Polytechnic, Preston, England	175
The Nightingale Programs Chris Olsen, Iowa Community Schools, Cedar Rapids, USA	180
Use of Computers in Teaching Statistics: Some Current and Projected Uses of Computer Technology in the Teaching of Statistics II N. Scott Urquhart, Department of Experimental Statistics, New Mexico State University, USA	184
A Study of the Interaction Between the Use of Statistical Software and the Data Analysis Process John D. McKenzie, Jr., William H. Rybolt, and David P. Kopcsó, Babson College, Wellesley, MA, USA.	190
The Impact of Computers on School Statistics Teaching Peter Holmes, Centre for Statistical Education, Sheffield, England	194
The Use of Microcomputers in Commonwealth Africa Paul M. Nyambala, CAPA Secretariat, Nairobi, Kenya	197
Teaching Power Analysis Using Regular Statistical Software Ralph G. O'Brien, University of Tennessee, USA	204
Computer Generation of Statistical Data Robin H. Lock, St. Lawrence University, Canton, NY, USA	212
Statistics by Simulation Arthur Engel, University of Frankfurt, Federal Republic of Germany	217
 Session 5: Teaching Statistics in Developing Countries <i>Dr. Mustafa Benyaklef, Institute of Statistics, Morocco</i>	
Teaching Statistics in Developing Countries M. Benyaklef, Institute of Statistics, Morocco	225
Improved and Expanded Teaching of Statistics in the Philippines Luke R. Moortgat, De La Salle University, Manila, Philippines	227
Teaching Statistics in Developing Countries: Some Experiences As a Statistics Teacher in Africa Adam Taube, Department of Statistics, University of Uppsala, Sweden	236

Some Problems of the Teaching of Statistics in Secondary Schools of Hong Kong	241
P.H. Cheung, Munsang College, Hong Kong; K. Lam, Statistics Department, Hong Kong University, Hong Kong; M.K. Siu, Mathematics Department, Hong Kong University, Hong Kong; N.Y. Wong, Wong Tai Shan Memorial College, Hong Kong	
Teaching Statistics in Schools in Saudi Arabia	245
A.H. Al-Harbey and G.M. El-Sayyad, King Abdulaziz University, Jeddah, Saudi Arabia	
Academic Versus Applied Training in Statistics: Approaches Used by the U.S. Bureau of the Census	249
Harland H. Shoemaker, Jr., Kenneth R. Bryson, Preston (Tim) Brown, and Les Solomon, International Statistical Programs Center, U.S. Bureau of the Census, USA	
Creating and Strengthening a Statistics Teaching Group	254
R.M. Loynes, University of Sheffield, England	
Session 6: Principles of Learning Probability and Statistics	
<i>Dr. David R. Green, Loughborough University, England</i>	
Principles of Learning Probability and Statistics	259
Dr. David Green, Loughborough University, England	
Didactical Phenomenology of Probability	260
Ramesh Kapadia, South Bank Polytechnic, London, England	
Appropriate Teaching and Learning of Stochastics in the Middle Grades	265
H. Schupp, University of the Saarland, Federal Republic of Germany	
Difficulties in Learning Probability and Statistics	270
Joan Garfield and Andrew Ahlgren, University of Minnesota, USA	
Teaching Statistics Through Data Analysis	275
Thomas Piazza, Survey Research Center and Department of Sociology, University of California, Berkeley, California, USA	
The Use of Counterexamples in Learning Probability and Statistics	280
Jordan Stoyanov, Institute of Mathematics, Bulgarian Academy of Sciences, Sofia, Bulgaria	
Children's Understanding of Randomness: Report of a Survey of 1600 Children Aged 7-11 Years	287
David R. Green, Loughborough University, England	
Conditional Probabilities: Insights and Difficulties	292
Ruma Falk, Department of Psychology and the Sturman Center for Human Development, The Hebrew University, Jerusalem 91-905, Israel	

Revising Probabilities According to New Information – A Fundamental Stochastic Intuition Manfred G. Borovcnik, University of Klagenfurt, Austria	298
 Session 7: Education of Statisticians <i>Professor Vic Barnett, University of Sheffield, England</i>	
Statistical Consultancy – A Basis for Teaching and Research Vic Barnett, University of Sheffield, England	303
Teaching Statistics in Universities Ralph A. Bradley, Department of Statistics, University of Georgia, Athens, Georgia, USA	308
University Statistics – What Are We Trying to Teach and How? C.W. Anderson and R.M. Loynes, University of Sheffield, England	317
Teaching Statistics Through Paradoxes G.J. Székely, Eötvös University, Budapest, Hungary	322
Teaching Statistical Students to Communicate as Consultants – An Example in Biostatistics Ronald G. Marks, Department of Statistics, University of Florida, Gainesville, Florida, USA	325
The Use of a Transparency Master Book for Teaching Statistics Harry O. Posten, University of Connecticut, USA	329
Panel Session: Teaching Statistics – Mathematical or Practical Model John Taffe, Australian National University, Australia	332
 Session 8: Statistics in Government and Implications for Teaching <i>José L. Sánchez-Crespo, Universidad Autónoma de Madrid, Spain</i>	
Statistics in Government and Implications for Teaching José L. Sánchez-Crespo, Universidad Autónoma de Madrid, Spain	337
Training Programme of the Spanish National Statistical Institute for Latin American and Caribbean Countries Carmen Arribas, National Statistical Institute, Madrid, Spain	339
Statistical Teaching and Training at the Generalitat of Catalonia, Spain Eduard Bonet, Consorci d'Informació, Barcelona, Spain	342
Teaching Statistics in Government: A Case Study in the Basque Country J.P. Vilaplana, University of the Basque Country, Lejona, Vizcaya, Spain	347

Session 9: Statistics in Industry and Implications for Teaching	
<i>Kerstin Vännman, University of Luleå, Sweden</i>	
Statistics in Industry and Implications for Teaching Kerstin Vännman, University of Luleå, Sweden	355
Industrial Training in Quality Improvement – Part I: Overview of the Session; The Role of Statistics Marie A. Gaudard, University of New Hampshire, Durham, NH, USA	357
Industrial Training in Quality Improvement – Part II: The Role of Human Relations D.H. Van Osdol, University of New Hampshire, Durham, NH, USA	361
Industrial Training in Quality Improvement – Part III: A First Course, A Group Approach to Problem Solving S.D. Shore, Department of Mathematics, University of New Hampshire, Durham, NH, USA	365
Industrial Training in Quality Improvement – Part IV: An Instructional Model; Implications for Secondary and College Instruction J. Ferrini-Mundy, Department of Mathematics, University of New Hampshire, Durham, NH, USA	370
Statistics in the Water Industry and Implications for Teaching Irene M. Calus, CAMET, University of Technology, Loughborough, Leicestershire, England	375
Bayesian Approaches to Teaching Engineering Statistics J. Stuart Hunter, Princeton, New Jersey, USA	380
Statistical Quality Control in Japanese Industry and Education Programs for Engineers Tadakazu Okuno, Science University of Tokyo, Japan	385
Putting Statistical Ideas Across to Industry William S. Perriman, Western Australian Institute of Technology, Perth, Australia	395
Teaching Statistics in Industrial Manufacturing Plants J. Marcus Jobe, Miami University, Ohio, USA C.T. Lin, GMI Engineering & Management Institute, USA David W. Poock, GMI Engineering & Management Institute, USA	401

Session 10: Statistics in Business and Implications for Teaching	
<i>Robert B. Miller, University of Wisconsin, Madison, WI, USA</i>	
Panel Discussion on Teaching Business Statistics: Overview of the Session	407
Robert B. Miller, University of Wisconsin, Madison, WI, USA	
Teaching Models and Case Studies: Overview of the Session	408
Robert B. Miller, University of Wisconsin, Madison, WI, USA	
Topics in Teaching Business Statistics: Overview of the Session	409
Lawrence A. Sherr, University of Kansas, USA	
Data Analysis for Managers	410
Harry V. Roberts, Graduate School of Business, University of Chicago, USA	
On A New Approach to an Introductory Course in Statistics for Business and Economics Including Some Experiences	415
Peter S. Mortensen, Graduate School of Management, Aarhus, Denmark	
Some Use of Statistical Sampling for Business Decisions	425
Gernold Frank, University of Frankfurt, Frankfurt, Federal Republic of Germany	
Targets and Tools for Teaching Statistics to Students of Business and Marketing	431
Martti Luoma, University of Vaasa, Finland	
"More about less or less about more?" – Depth Versus Breadth in the Statistical Education of Business and Economics Students	435
Eric R. Sowe, Department of Econometrics, University of N.S.W., Sydney, Australia	
Session 11: Miscellaneous	
<i>Professor Lennart Råde, Chalmers University of Technology, Gothenberg, Sweden</i>	
The Teaching of Statistics in Portugal – Problems and Some Suggestions Towards Its Solution	441
M.F. Ramalhoto, Maths Department, Instituto Superior Tecnico, Lisbon, Portugal	
Provision and Utilization of Outside Sources of Assistance for Undergraduates	446
Richard Madsen, University of Missouri-Columbia, USA	
New Challenges to the ISI Education Committee	452
J. Gani, Statistics Program, University of California, Santa Barbara, CA, USA	

The Making of Statistical Films	461
A.D. Lunn, The Open University, England	
D.J. Saunders, BBC-Open University, England	
Distance Teaching of Statistics – A Report on 10 Years of Experience at the University of Hagen	465
Josef Gruber, Department of Economics, University of Hagen, Hagen, Federal Republic of Germany	
1786-1986: Two Centuries of Teaching Statistics	478
John Bibby, University of Edinburgh, Scotland	
Teaching Statistics to the Rest of Humanity	494
Warren Gilchrist, Centre for Statistical Education, Sheffield, England	
The Challenges of Statistical Training	498
R.R. Harris, Lancashire Polytechnic, Preston, England	
G.K. Kanji, Sheffield City Polytechnic, Sheffield, England	
Contributed Paper Sessions	503
Contributed Poster Displays	509
