# TABLE OF CONTENTS

**Preface**  

**Plenary**

Statistication: The Quest for a Curriculum  
James V. Zidek, University of British Columbia, Canada  

Questions, Answers and Statistics  
Terry Speed, CSIRO Division of Mathematics and Statistics, Canberra, Australia  

Statistical Education in the Developing Countries of Africa:  
The Nigerian Experience  
J.N. Adichie, University of Nigeria, Nsukka, Nigeria  

Is Anyone Listening Out There? Statistics and the Public  
William Kruskal, University of Chicago, USA  

**Session 1: Teaching Statistics (6-11)**  
*Dr. Lionel Pereira-Mendoza, Memorial University of Newfoundland, Newfoundland, Canada*

Chairman's Report: Teaching Statistics to Children Aged 6-11  
Dr. L. Pereira-Mendoza, Memorial University of Newfoundland, Newfoundland, Canada  

A Comparison of the Statistics Curriculum for Children aged 5-11  
in Britain, Canada and the U.S.A.  
Dr. Lionel Pereira-Mendoza, Faculty of Education, Memorial University of Newfoundland, St. John's, Newfoundland, Canada  

Teaching Statistics (11-18) in Italy and The Activity of the "Societa' Italiana Di Statistica"  
Enrica Aureli and M. Gabriella Ottaviani, Dipartimento di Statistica, Probabilita e Statistiche Applicate, Universita degli Studi "La Sapienza", Rome, Italy  

Elementary Schools Students' Use of Strategy In Playing Microcomputer Probability Games  
Thomas L. Schroeder, University of Calgary, Canada  

Probability Games  
George W. Bright, University of Houston, USA  
John G. Harvey, University of Wisconsin, USA  

EDA in the Primary Classroom – Graphing and Concept Formation Combined  
Andrejs Dunkels, Department of Mathematics and Department of Teacher Education, Luleå University, Luleå, Sweden
Session 2: Teaching Statistics (12-18)
Mr. Peter Holmes, Centre for Statistical Education, Sheffield, England

Teaching Statistics (12-18)
Peter Holmes, Centre for Statistical Education, Sheffield, England

A Statistics Course for All Students Aged 11-16
Peter Holmes, Centre for Statistical Education, Sheffield, England

How to Teach Statistical Concepts to Slow-learning Pupils
Albrecht Abele, Pädagogische Hochschule Heidelberg, Federal Republic of Germany

Exploratory Data Analysis and the Secondary Stochastics Curriculum
Rolf Biehler, Institut für Didaktik der Mathematik (IDM) Universität Bielefeld, Federal Republic of Germany

Using Simulation to Model Real World Problems
Beth H. Bryan, Augusta College, USA

A Practical Approach to the Central Limit Theorem
Michael J. Glencross, University of the Witwatersrand, South Africa

Mutually Exclusive and Independence: Unravelling Basic Misconceptions in Probability Theory
I.W. Kelly, University of Saskatchewan, Canada
F.W. Zwiers, Environment Canada, Canada

A Way of Teaching Significance Testing
J.H. Durran, Winchester College, England

The Teaching of Statistics and Probability in the Italian Junior High School
Luigi Fabbris, Statistics Department, University of Padua, Italy

A Curriculum of Probability and Statistics in Italian Secondary School (11-14)
Perelli D'Argenzo, M.P., and F. Pesarin, School A. Vivaldi, Dosson (TV) and Department of Statistics, University of Padua, Italy

An Exploratory Survey of Teachers of Mathematics in the State Upper Secondary Schools in Italy: Some Results
Alberto Zuliani and Francesco Sanna, Faculty of Economics, University of Rome, Italy

Behavioral Statistics Textbooks: Source of Myths and Misconceptions?
James K. Brewer, The Florida State University, USA
A National Schools Statistics Competition

Session 3: Initial and In-Service Training of Teachers of Statistics
Professor Claude Gaulin, Université Laval, Quebec, Canada

The Training of Brunel University Undergraduates Who Intend to Become Statistics Teachers
G.W. Goodall and F.R. Jolliffe, Brunel University, England

Statistics and Probability in the School Mathematics Curriculum: A Review of the ASA-NCTM Quantitative Literacy Project
R. Scheaffer, University of Florida, USA
G. Burrill, Whitnall High School, Greenfield, Wisconsin, USA

Initial and In-Service Training of Teachers of Statistics: In-Service Training to Assist Junior High School Teachers to Implement a New Syllabus in Statistics
Michael J. Glencross, University of the Witwatersrand, South Africa

The Interaction Between Teaching Practice and Theoretical Conceptions – A Cooperative Model of In-Service Training in Statistics for Mathematics Teachers (Grades 5–10)
Heinz Steinbring, Institut für Didaktik der Mathematik, University of Bielefeld, Federal Republic of Germany

Session 4: Use of Computers in Teaching Statistics
Professor Donald Barr, Naval Postgraduate School, Monterey, California, USA

Use of Computers in Teaching Statistics
Donald R. Barr, Naval Postgraduate School, Monterey, California, USA

Using Microcomputers in Teaching Time Series Analysis
D. Alan Jones, University College of Wales, Aberystwyth, Wales

The Role of the Computer in the Teaching of Statistics
Tarmo Pukkila and Simo Putanen, University of Tampere, Finland

Teaching Data Analysis Using Interactive APL-Based Graphics Packages
I.G. O'Muircheartaigh, University College, Galway, Ireland
The Challenge of Computers in Today's Statistical Education
G.K. Kanji, Department of Applied Statistics and Operational Research, Sheffield City Polytechnic, Sheffield, England
R.R. Harris, School of Mathematics and Statistics, Lancashire Polytechnic, Preston, England

The Nightingale Programs
Chris Olsen, Iowa Community Schools, Cedar Rapids, USA

N. Scott Urquhart, Department of Experimental Statistics, New Mexico State University, USA

A Study of the Interaction Between the Use of Statistical Software and the Data Analysis Process
John D. McKenzie, Jr., William H. Rybolt, and David P. Kopcsno, Babson College, Wellesley, MA, USA.

The Impact of Computers on School Statistics Teaching
Peter Holmes, Centre for Statistical Education, Sheffield, England

The Use of Microcomputers in Commonwealth Africa
Paul M. Nyambala, CAPA Secretariat, Nairobi, Kenya

Teaching Power Analysis Using Regular Statistical Software
Ralph G. O'Brien, University of Tennessee, USA

Computer Generation of Statistical Data
Robin H. Lock, St. Lawrence University, Canton, NY, USA

Statistics by Simulation
Arthur Engel, University of Frankfurt, Federal Republic of Germany

Session 5: Teaching Statistics in Developing Countries
Dr. Mustafa Benyaklef, Institute of Statistics, Morocco

Teaching Statistics in Developing Countries
M. Benyaklef, Institute of Statistics, Morocco

Improved and Expanded Teaching of Statistics in the Philippines
Luke R. Moortgat, De La Salle University, Manila, Philippines

Teaching Statistics in Developing Countries: Some Experiences As a Statistics Teacher in Africa
Adam Taube, Department of Statistics, University of Uppsala, Sweden
Some Problems of the Teaching of Statistics in Secondary Schools of Hong Kong
P.H. Cheung, Munsang College, Hong Kong; K. Lam, Statistics Department, Hong Kong University, Hong Kong; M.K. Siu, Mathematics Department, Hong Kong University, Hong Kong; N.Y. Wong, Wong Tai Shan Memorial College, Hong Kong

Teaching Statistics in Schools in Saudi Arabia
A.H. Al-Harbey and G.M. El-Sayyad, King Abdulaziz University, Jeddah, Saudi Arabia

Academic Versus Applied Training in Statistics: Approaches Used by the U.S. Bureau of the Census

Creating and Strengthening a Statistics Teaching Group
R.M. Loynes, University of Sheffield, England

Session 6: Principles of Learning Probability and Statistics
Dr. David R. Green, Loughborough University, England

Principles of Learning Probability and Statistics
Dr. David Green, Loughborough University, England

Didactical Phenomenology of Probability
Ramesh Kapadia, South Bank Polytechnic, London, England

Appropriate Teaching and Learning of Stochastics in the Middle Grades
H. Schupp, University of the Saarland, Federal Republic of Germany

Difficulties in Learning Probability and Statistics
Joan Garfield and Andrew Ahlgren, University of Minnesota, USA

Teaching Statistics Through Data Analysis
Thomas Piazza, Survey Research Center and Department of Sociology, University of California, Berkeley, California, USA

The Use of Counterexamples in Learning Probability and Statistics
Jordan Stoyanov, Institute of Mathematics, Bulgarian Academy of Sciences, Sofia, Bulgaria

Children's Understanding of Randomness: Report of a Survey of 1600 Children Aged 7-11 Years
David R. Green, Loughborough University, England

Conditional Probabilities: Insights and Difficulties
Ruma Falk, Department of Psychology and the Sturman Center for Human Development, The Hebrew University, Jerusalem 91-905, Israel
Revising Probabilities According to New Information – A Fundamental Stochastic Intuition  
Manfred G. Borovcnik, University of Klagenfurt, Austria

Session 7: Education of Statisticians  
Professor Vic Barnett, University of Sheffield, England

Statistical Consultancy – A Basis for Teaching and Research  
Vic Barnett, University of Sheffield, England

Teaching Statistics in Universities  
Ralph A. Bradley, Department of Statistics, University of Georgia, Athens, Georgia, USA

University Statistics – What Are We Trying to Teach and How?  
C.W. Anderson and R.M. Loynes, University of Sheffield, England

Teaching Statistics Through Paradoxes  
G.J. Székely, Eötvös University, Budapest, Hungary

Teaching Statistical Students to Communicate as Consultants – An Example in Biostatistics  
Ronald G. Marks, Department of Statistics, University of Florida, Gainesville, Florida, USA

The Use of a Transparency Master Book for Teaching Statistics  
Harry O. Posten, University of Connecticut, USA

Panel Session: Teaching Statistics – Mathematical or Practical Model  
John Taffe, Australian National University, Australia

Session 8: Statistics in Government and Implications for Teaching  
José L. Sánchez-Crespo, Universidad Autónoma de Madrid, Spain

Statistics in Government and Implications for Teaching  
José L. Sánchez-Crespo, Universidad Autónoma de Madrid, Spain

Training Programme of the Spanish National Statistical Institute for Latin American and Caribbean Countries  
Carmen Arribas, National Statistical Institute, Madrid, Spain

Statistical Teaching and Training at the Generalitat de Catalunya, Spain  
Eduard Bonet, Consorci d’Informació, Barcelona, Spain

Teaching Statistics in Government: A Case Study in the Basque Country  
J.P. Vilaplana, University of the Basque Country, Lejona, Vizcaya, Spain
Session 9: Statistics in Industry and Implications for Teaching
Kerstin Vännman, University of Luleå, Sweden

Statistics in Industry and Implications for Teaching
Kerstin Vännman, University of Luleå, Sweden

Industrial Training in Quality Improvement – Part I: Overview of the Session; The Role of Statistics
Marie A. Gaudard, University of New Hampshire, Durham, NH, USA

Industrial Training in Quality Improvement – Part II: The Role of Human Relations
D.H. Van Osdol, University of New Hampshire, Durham, NH, USA

Industrial Training in Quality Improvement – Part III: A First Course, A Group Approach to Problem Solving
S.D. Shore, Department of Mathematics, University of New Hampshire, Durham, NH, USA

Industrial Training in Quality Improvement – Part IV: An Instructional Model; Implications for Secondary and College Instruction
J. Ferrini-Mundy, Department of Mathematics, University of New Hampshire, Durham, NH, USA

Statistics in the Water Industry and Implications for Teaching
Irene M. Calus, CAMET, University of Technology, Loughborough, Leicestershire, England

Bayesian Approaches to Teaching Engineering Statistics
J. Stuart Hunter, Princeton, New Jersey, USA

Statistical Quality Control in Japanese Industry and Education Programs for Engineers
Tadakazu Okuno, Science University of Tokyo, Japan

Putting Statistical Ideas Across to Industry
William S. Perriman, Western Australian Institute of Technology, Perth, Australia

Teaching Statistics in Industrial Manufacturing Plants
J. Marcus Jobe, Miami University, Ohio, USA
C.T. Lin, GMI Engineering & Management Institute, USA
David W. Pooch, GMI Engineering & Management Institute, USA
Session 10: Statistics in Business and Implications for Teaching

Robert B. Miller, University of Wisconsin, Madison, WI, USA

Panel Discussion on Teaching Business Statistics: Overview of the Session
Robert B. Miller, University of Wisconsin, Madison, WI, USA

Teaching Models and Case Studies: Overview of the Session
Robert B. Miller, University of Wisconsin, Madison, WI, USA

Topics in Teaching Business Statistics: Overview of the Session
Lawrence A. Sherr, University of Kansas, USA

Data Analysis for Managers
Harry V. Roberts, Graduate School of Business, University of Chicago, USA

On A New Approach to an Introductory Course in Statistics for Business and Economics Including Some Experiences
Peter S. Mortensen, Graduate School of Management, Aarhus, Denmark

Some Use of Statistical Sampling for Business Decisions
Gernold Frank, University of Frankfurt, Frankfurt, Federal Republic of Germany

Targets and Tools for Teaching Statistics to Students of Business and Marketing
Martti Luoma, University of Vaasa, Finland

"More about less or less about more?" – Depth Versus Breadth in the Statistical Education of Business and Economics Students
Eric R. Sowey, Department of Econometrics, University of N.S.W., Sydney, Australia

Session 11: Miscellaneous

Professor Lennart Råde, Chalmers University of Technology, Gothenburg, Sweden

The Teaching of Statistics in Portugal – Problems and Some Suggestions Towards Its Solution
M.F. Ramalhoto, Maths Department, Instituto Superior Tecnico, Lisbon, Portugal

 Provision and Utilization of Outside Sources of Assistance for Undergraduates
Richard Madsen, University of Missouri-Columbia, USA

New Challenges to the ISI Education Committee
J. Gani, Statistics Program, University of California, Santa Barbara, CA, USA
The Making of Statistical Films
A.D. Lunn, The Open University, England
D.J. Saunders, BBC-Open University, England

Distance Teaching of Statistics – A Report on 10 Years of Experience at the University of Hagen
Josef Gruber, Department of Economics, University of Hagen, Hagen, Federal Republic of Germany

1786-1986: Two Centuries of Teaching Statistics
John Bibby, University of Edinburgh, Scotland

Teaching Statistics to the Rest of Humanity
Warren Gilchrist, Centre for Statistical Education, Sheffield, England

The Challenges of Statistical Training
R.R. Harris, Lancashire Polytechnic, Preston, England
G.K. Kanji, Sheffield City Polytechnic, Sheffield, England

Contributed Paper Sessions

Contributed Poster Displays
