

# IASE 2023 Satellite Conference

*Fostering Learning*  
Hybrid Conference

*of Statistics and Data Science*  
11-13 July 2023, Toronto, Canada

## Call for Papers

---

The [International Association for Statistical Education \(IASE\)](#) and the [International Association for Statistical Computing \(IASC\)](#) are co-organizing the 13<sup>th</sup> IASE Satellite Conference which will take place **from 11 July to 13 July 2023**, just before the 64<sup>th</sup> World Statistics Congress ([WSC64](#), 16–20 July in Ottawa, Canada). The conference will be offered in a **hybrid format** to welcome both online delegates and those participating in-person in Toronto, Canada.

The theme of the conference is "***Fostering Learning of Statistics and Data Science***". For more information on the theme and its particular topics, please visit the conference's [Theme & Papers](#) page. Submissions are now being accepted for contributions in the form of papers and posters that align with the theme and address one of the following topics:

- Topic 1: Fostering Learning in the Current Data Landscape
- Topic 2: Cultivating Probabilistic Thinking for Data Analysis
- Topic 3: Enhancing Statistics and Data Science in Schools
- Topic 4: Promoting Inclusion in Statistics and Data Science Education
- Topic 5: Achieving Coding Competencies in Data Science Students

A submission will require a 300-word description of the proposed paper or poster, to be **submitted by 30 January 2023** through this [online form](https://bit.ly/IASE_IASC_2023_ProposalForm) ([https://bit.ly/IASE\\_IASC\\_2023\\_ProposalForm](https://bit.ly/IASE_IASC_2023_ProposalForm))
