## 2024 Roundtable Update

*from Travis Weiland (USA), Chair of the International Program Committee*

We receive many wonderful submissions for the [IASE 2024 Roundtable Conference](#) in New Zealand this coming summer. The conference will bring together scholars from around the world to share recent research and ideas on the theme of connecting data and people for inclusive statistics and data science education. The proceedings are set to be published online this coming Fall 2024 for all to learn from.

### Revista de Educación Estadística [REDES]

Ya está en circulación la Revista de Educación Estadística [REDES, por sus siglas en español]. Es la primera revista en español y portugués dedicada exclusivamente a la Educación Estadística. Es un proyecto liderado por el Dr. Danilo Díaz-Levicoy, desde la Facultad de Ciencias Básicas de la Universidad Católica del Maule, Chile.

Es una publicación semestral, con publicación en abril y octubre, cuyo objetivo es

aportar al conocimiento que se genera producto de la investigación científica en el campo de la Educación Estadística. Publica artículos de investigación originales e inéditos, escritos en español o portugués, que puedan ser referencia para el desarrollo de la Educación Estadística en el ámbito regional y mundial. Los artículos son seleccionados por el proceso de arbitraje externo, mediante el sistema doble ciego.

Además, puede publicar ensayos los cuales serán recibidos estrictamente a solicitud o encargo del Consejo Editor y también serán arbitrados. Está dirigida a educadores e investigadores interesados en la enseñanza o aprendizaje de la estadística y la probabilidad en todos los niveles y modalidades de la educación.

*The Journal of Statistical Education [REDES, for its acronym in Spanish] is now in circulation. It is the first journal in Spanish and Portuguese dedicated exclusively to Statistics Education. It is a project led by Dr. Danilo Díaz-Levicoy, from the Faculty of Basic Sciences of the Universidad Católica del Maule, Chile.*

*It is a biannual publication, published in April and October, whose objective is to contribute to the knowledge generated by scientific research in the field of Statistics Education. It publishes original and unpublished research articles, written in Spanish or Portuguese, which can be a reference for the development of Statistics Education in the regional and global scope. The articles are selected by the external arbitration process, through the double-blind system.*

*In addition, it may publish essays which will be received strictly upon request or order of the Editorial Board and will also be refereed. It is addressed to educators and researchers interested in the teaching or learning of statistics and probability at all levels and modalities of education.*

El Consejo Editorial está conformado por:

Dra. Carmen Batanero, Universidad de Granada, España.

Dr. Carlos Ferreira Monteiro, Universidade Federal de Pernambuco, Brasil

Dr. Daniel Frischemeier, Universitat Paderborn, Alemania.

Dr. Santiago Inzunza, Universidad Autónoma de Sinaloa, México.

Dra. María del Mar López Martín, Universidad de Almería, España.

Dr. Francisco Rodríguez-Alveal, Universidad Bío-Bío, Chile.

Dr. Marcelo Rodríguez Gallardo, Universidad Católica del Maule, Chile.

Dra. Suzi Samá, Universidade Federal do Rio Grande, Brasil

Hasta ahora se han publicado dos números y está próximo a publicarse en tercero.

Invitamos a todos los investigadores a considerar a REDES para publicar sus investigaciones.

Dr. Danilo Díaz-Levicoy, Universidad Católica del Maule, Chile. Director.

Dra. Andrea Vergara, Universidad Católica del Maule, Chile. Editora Asociada.

Dr. Audy Salcedo, Universidad Autónoma de Chile, Chile. Editor Asociado.

### Search for Honourary Roles

The ISLP is currently looking to give some tasks out to honorary volunteers from the IASE. The roles include, for example, the following:

1. An ISLP meeting secretary whose tasks include sending out Teams/Zoom meeting links and taking meeting minutes. A special importance is placed on matching calendars and using Doodle, as the meeting participants very often come from opposing corners of the world.
2. An ISLP website manager & resources manager. This role involves maintaining the [ISLP website](#) up-to-date, including, collecting news items, updating the country coordinators list, managing documents and information in regards to the ISLP Poster Competition, and particularly, becoming the trusted person for maintaining the “Resources” section of the ISLP website. The person selected for this role has a good command of statistics education materials, particularly materials to promote statistical literacy. The resources manager both arranges existing resources and proactively seeks for recently published ones. A

command of Spanish/French/Portuguese will be considered an advantage.

3. Other tasks on an ad-hoc basis. The ISLP is grateful for any IASE members that are motivated to offer their time and expertise towards the project.

To volunteer, please contact the ISLP Director Reija Helenius at [reija.helenius\(at\)stat.fi](mailto:reija.helenius@stat.fi) and the ISLP Project Coordinator Elisa Falck at [islp.coordination\(at\)gmail.com](mailto:islp.coordination@gmail.com).

## ISLP Newest Newsletter

The ISLP welcomes articles to its newest newsletter. Even short articles are very welcome! We particularly welcome articles about regional activities taking place in different countries, ideally relating to the theme of statistical literacy. Please send your articles by the 30th of March (!) to [islp.coordination\(at\)gmail.com](mailto:islp.coordination@gmail.com).

The logo for the International Association for Statistical Education (IASE) is centered on a light orange background. The letters 'IASE' are in a white, serif font, with the 'I' and 'A' being slightly larger than the 'S' and 'E'. The logo is set against a faint, larger-scale version of the same 'IASE' text.
