

PAST IASE CONFERENCES

IASE Satellite to 2013 World Statistics Congress Macao, China August 22-24, 2013

The theme of the 2013 IASE Satellite Conference is ‘Statistics Education for Progress’, with a special sub-theme on August 24 of “Statistics Education for Progress: Youth and Official Statistics.” The first two days featured papers proposed by IASE while the third day involved representatives of IAOS as well as IASE.

OTHER PAST CONFERENCES

2013 JOINT STATISTICAL MEETINGS Celebrating the International Year of Statistics Montréal, Québec, Canada, August 3-8, 2013

The 2013 Joint Statistical Meetings (JSM) was held August 3-8 in Montréal, Québec, Canada, at the Palais des congrès de Montréal. JSM is the largest gathering of statisticians held in North America. It is held jointly with the American Statistical Association, the International Biometric Society (ENAR and WNAR), the Institute of Mathematical Statistics, the Statistical Society of Canada, the International Chinese Statistical Association, the International Indian Statistical Association, the International Society for Bayesian Analysis, and the Korean International Statistical Association. Attended by over 6000 people, activities of the meeting included oral presentations, panel sessions, poster presentations, continuing education courses, exhibit hall (with state-of-the-art statistical products and opportunities), career placement service, society and section business meetings, committee meetings, social activities, and networking opportunities.

SRTL-8 Eighth International Research Forum on Statistical Reasoning, Thinking and Literacy Superior Shores Resort & Conference Center Two Harbors, Minnesota, USA August 18-24, 2013

The SRTL International Collaboration began in 1999 to foster current and innovative research studies that examine the nature and development of statistical literacy, reasoning, and thinking, and to explore the challenge of developing these desired learning goals for students. Co-chaired by Joan Garfield and Dani Ben-Zvi, the SRTL Forums offer scientific gatherings every two years and related publications in journals, and books. The theme of the SRTL-8 Research Forum was “Reasoning about Uncertainty in the Context of Making Informal Statistical Inferences.”

**59th World Statistics Congress of the ISI
Hong Kong Convention and Exhibition Centre (HKCEC)
August 25-30, 2013**

The 59th WSC provides a platform for the international statistical community to share and present the latest knowledge and innovation in statistics. The scientific programme encompassed a wide range of topics facilitating professional exchanges and sharing among experts and practitioners in various statistical spheres. Featuring the unique theme “Youth”, a series of sessions was held on the “Theme Day” of the 59th WSC to address the theme from various statistical perspectives.

**RSS 2013 INTERNATIONAL CONFERENCE
Newcastle, UK, September 2–5, 2013**

The Royal Statistical Society’s International Conference included the usual mix of keynote speakers, invited sessions, professional development workshops, networking opportunities, and the society’s annual awards ceremony.

FORTHCOMING IASE CONFERENCES

**9th International Conference on Teaching Statistics
Flagstaff, Arizona, USA, July 13-18, 2014**

The International Conference on Teaching Statistics (ICOTS) is held every four years in different parts of the world. This conference is organized by the IASE. The main purpose of ICOTS is to give statistics educators and professionals around the world the opportunity to exchange information, ideas and experiences, to present recent innovation and research in the field of statistics education, and to expand their range of collaborators. The ICOTS9 conference theme is “Sustainability in

Statistics Education”. The 2014 Conference will be held in Flagstaff, Arizona, USA, which is near the southwestern edge of the Colorado Plateau, along the western side of the largest contiguous Ponderosa Pine forest in the continental United States.

For more information: <http://icots.net/9/>

OTHER FORTHCOMING CONFERENCES

2014 Joint Mathematics Meetings Baltimore, Maryland, USA, January 15–18, 2014

The largest mathematics meeting in the world is heading back to Baltimore's Inner Harbor, one of the most photographed and visited areas of the city and one of the major seaports in the United States since the 1700s. The Mathematical Association of America (MAA) and the American Mathematical Society (AMS) invite you to join them there for the next Joint Mathematics Meetings (JMM). This will be the 97th annual winter meeting of MAA and the 120th annual meeting of AMS. The JMM will host sessions by the Association for Symbolic Logic (ASL), the Association for Women in Mathematics (AWM), the National Association for Mathematicians (NAM), and the Society for

Industrial and Applied Mathematics (SIAM).

For more information: <http://jointmathematicsmeetings.org/jmm>

Electronic Conference on Teaching Statistics (eCOTS) 2014 May 19–23, 2014

The second biennial Electronic Conference on Teaching Statistics (eCOTS) will occur May 19-23, 2014, hosted by the Consortium for the Advancement of Undergraduate Statistics Education (www.CAUSEweb.org) and chaired by Michelle Everson (gaddy001@umn.edu). The \$25 registration fee covers as many sessions as you want to attend. eCOTS includes invited and refereed breakout sessions and virtual posters, panel discussions, virtual workshops to disseminate NSF-supported statistics education innovations, “birds of a feather” discussions, and keynote presentations on the three themes of the conference: “Teaching from Big Data”, “The Impact of the Common Core”, and “Bridging the Disciplines”.

For more details about the conference, including how to submit proposals (by February 14, 2014) for breakout sessions and posters: <http://www.causeweb.org/ecots/>

International Mathematics Education for the Future Conference 2014 Herceg Novi, Montenegro, September 21–26, 2014

The theme of the conference is “The Future of Mathematics Education in a Connected World.” The eleven previous conferences since 1999, held by the Maths Education into the 21st Century Project, were renowned for their friendly and productive atmosphere, and were attended by many innovative movers and shakers from around the world. We now welcome proposals for papers and workshops in all areas of innovation in mathematics, science, computing and statistics education. We would especially like to help research students/lecturers by offering free double-blind peer review for formal research papers sent to us in good time by registered participants. The Proceedings will be published as a DVD for each participant, and will also be available on-line. In addition there is a possibility of selected papers being published as a book after the conference. The Early Bird Registration Fee (before February 1, 2014) will be (per person) 355 euro for double/twin share and 420 euro for single accommodation. This will cover all conference documents and social events, five nights B&B accommodation, and all meals and coffee/tea breaks, except for two evenings during which participants will be free to enjoy dinner at the local waterfront restaurants and in the charming old town of Herceg Novi. Please send inquiries to Alan Rogerson (alan@cdnalma.poznan.pl).

ICME 13
INTERNATIONAL CONGRESS ON MATHEMATICAL EDUCATION
Hamburg, Germany, July 24-31, 2016

The Society of Didactics of Mathematics (Gesellschaft für Didaktik der Mathematik - GDM) has the pleasure of hosting ICME-13 in 2016 in Germany. The congress – to be held under the auspices of the International Commission on Mathematical Instruction (ICMI) – will take place at the University of Hamburg. Hamburg is a bustling cosmopolitan port in the north of Germany, and with 1.8 million inhabitants its second largest city. It offers a perfect environment for a stimulating Congress.
