

## **SERJ VOLUME 2 NUMBER 1 MAY 2003 ERRATUM**

In SERJ2(1) the following reference was inadvertently omitted from the reference list of the Petocz and Reid paper 'Relationships between Students' Experience of Learning Statistics and Teaching Statistics':

Crawford, K., Gordon, S., Nicholas, J., & Prosser, M. (1994). Conceptions of mathematics and how it is learned: The perspectives of students entering university. *Learning and Instruction, 4*, 331-345.

This reference should have been included on page 51 of SERJ2(1). We apologize for this omission.
