

## Principle Sponsors

**Northern Arizona University** has a student population of more than 25,000 with its main campus at the foot of the San Francisco Peaks in Flagstaff, Arizona. NAU provides an outstanding undergraduate residential education strengthened by research, graduate and professional programs, and sophisticated methods of distance delivery and innovative new campuses and programs throughout the state. NAU's mission and goals are based on our core values, which includes placing learner needs at the center of our planning, policies, and programs; providing all qualified students with access to higher education; achieving multicultural understanding as a priority of educational and civic life; operating with fairness, honesty, and the highest ethical standards; and supporting a civil, engaging, and respectful campus climate.

**The American Statistical Association** is the world's largest community of statisticians, the "Big Tent for Statistics." The ASA supports excellence in the development, application, and dissemination of statistical science through meetings, publications, membership services, education, accreditation, and advocacy. Our nearly 19,000 members serve in industry, government, and academia in more than 90 countries, advancing research and promoting sound statistical practice to inform public policy and improve human welfare.

**The International Statistical Institute** is unmatched in its global reach among statisticians and those interested in the field of statistics. We are also an association that links national statistical societies, with special focus on the societies in developing regions of the world. A majority of the world's central bureaus of statistics are represented within the ISI network. Our influence within the international statistical community is supported by the seven ISI Associations, each of them specialise in a particular area of statistics, and the committees, which are active interest groups. The ISI is a non-profit, non-governmental organisation and has consultative status by the Economic and Social Council of the United Nations since 1949. Officially, the ISI was established in 1885, though

the initial international gatherings of statisticians started earlier - back in 1853. Therefore, we are one of the oldest scientific associations still active throughout the world today.

**The World Bank** is a vital source of financial and technical assistance to developing countries around the world. We are not a bank in the ordinary sense but a unique partnership to reduce poverty and support development. The World Bank Group comprises five institutions managed by their member countries. Established in 1944, the World Bank Group is headquartered in Washington, D.C. We have more than 10,000 employees in more than 120 offices worldwide.

### Platinum Sponsor

**JMP** is desktop statistical discovery software from **SAS** that links interactive graphs with deep statistics. In the classroom, its visual approach to data exploration and analysis promotes understanding and collaboration. JMP reveals context and insight not seen in a table of numbers. The academic version of the software includes the same comprehensive and extensible capabilities that are used in the industry version. JMP is available for both Macintosh and Windows systems.

### Gold Sponsor

**OpenStax College** is committed to improving student access to quality learning materials. An initiative of Rice University and supported by philanthropic foundations, OpenStax College provides free textbooks, developed and peer-reviewed by educators to ensure they are readable, accurate and meet the scope and sequence requirements of your course.

## Silver Sponsors

**Cengage Learning** is a leading educational content, technology, and services company for the higher education and K-12, professional, and library markets worldwide. The company provides superior content, personalized services, and course-driven digital solutions that accelerate student engagement and transform the learning experience. Cengage Learning is headquartered in Boston, MA, with operations in more than 20 countries around the world. For more, visit: [www.cengage.com](http://www.cengage.com).

# WILEY

**Wiley** is a global provider of content and content-enabled online products and solutions in areas of scientific, technical, medical, and scholarly research; professional development; and educational materials for undergraduate and graduate students and lifelong learners.

## Conference Lanyards

**Minitab® 17** is the leading software for statistics education worldwide, and the package of choice at more than 4,000 colleges and universities. Download a free trial: [www.minitab.com/academic](http://www.minitab.com/academic)

## Exhibitors

**Cengage Learning** is a leading educational content, technology, and services company for the higher education and K-12, professional, and library markets worldwide. The company provides superior content, personalized services, and course-driven digital solutions that accelerate student engagement and transform the learning experience. Cengage

Learning is headquartered in Boston, MA, with operations in more than 20 countries around the world. For more, visit: [www.cengage.com](http://www.cengage.com).

**IPUMS-International** is a global partnership of national statistical offices, international organizations and university researchers. Our goals are to preserve, harmonize, and disseminate census data and documentation to qualified researchers world-wide, free of charge. With the June 2014 data release, the database will deliver data from more than 79 countries and 259 census samples with over 560 million person records available.

With more than 30 years of experience specializing in mathematics courseware, **Hawkes Learning** provides the best learning tools in order to help students succeed. Hawkes unique approach to mastery learning motivates students and promotes grade improvement by engaging them in the learning process. At Hawkes, we firmly believe: Students matter. Success counts.

**Macmillan Education** (W.H. Freeman & Company) publishes high-quality media and textbooks in Introductory Statistics, Business Statistics, and Statistics for the Life Sciences. Stop by to see a live demonstration of our new online homework platform, LaunchPad, which contains a curated collection of videos, simulations, animations, multimedia assignments, and algorithmic homework to complement our ebooks.
