WEBINAR

# The sum is greater than its parts – promoting statistical literacy worldwide

SIDE EVENT FOR THE 55TH UNSC

6th February 2024  
9–10 AM (UTC–5)

## About the event

Statistical literacy is a skill required both in everyday life and in working life. In this webinar, some practices on how to promote statistical literacy will be introduced. The methods of international co-operation will also be discussed. Finally, enough time will be left for the audience to participate and strengthen networks in the field of statistical literacy promotion.
