

How do Students Portray Themselves in the Classroom?

We asked 25 students what they ranked themselves (1-5), 1 being the most introverted and 5 being the most extroverted. We then asked those same students' teachers how they ranked all their individual students (1-5).

What Students Think of Themselves 1-5

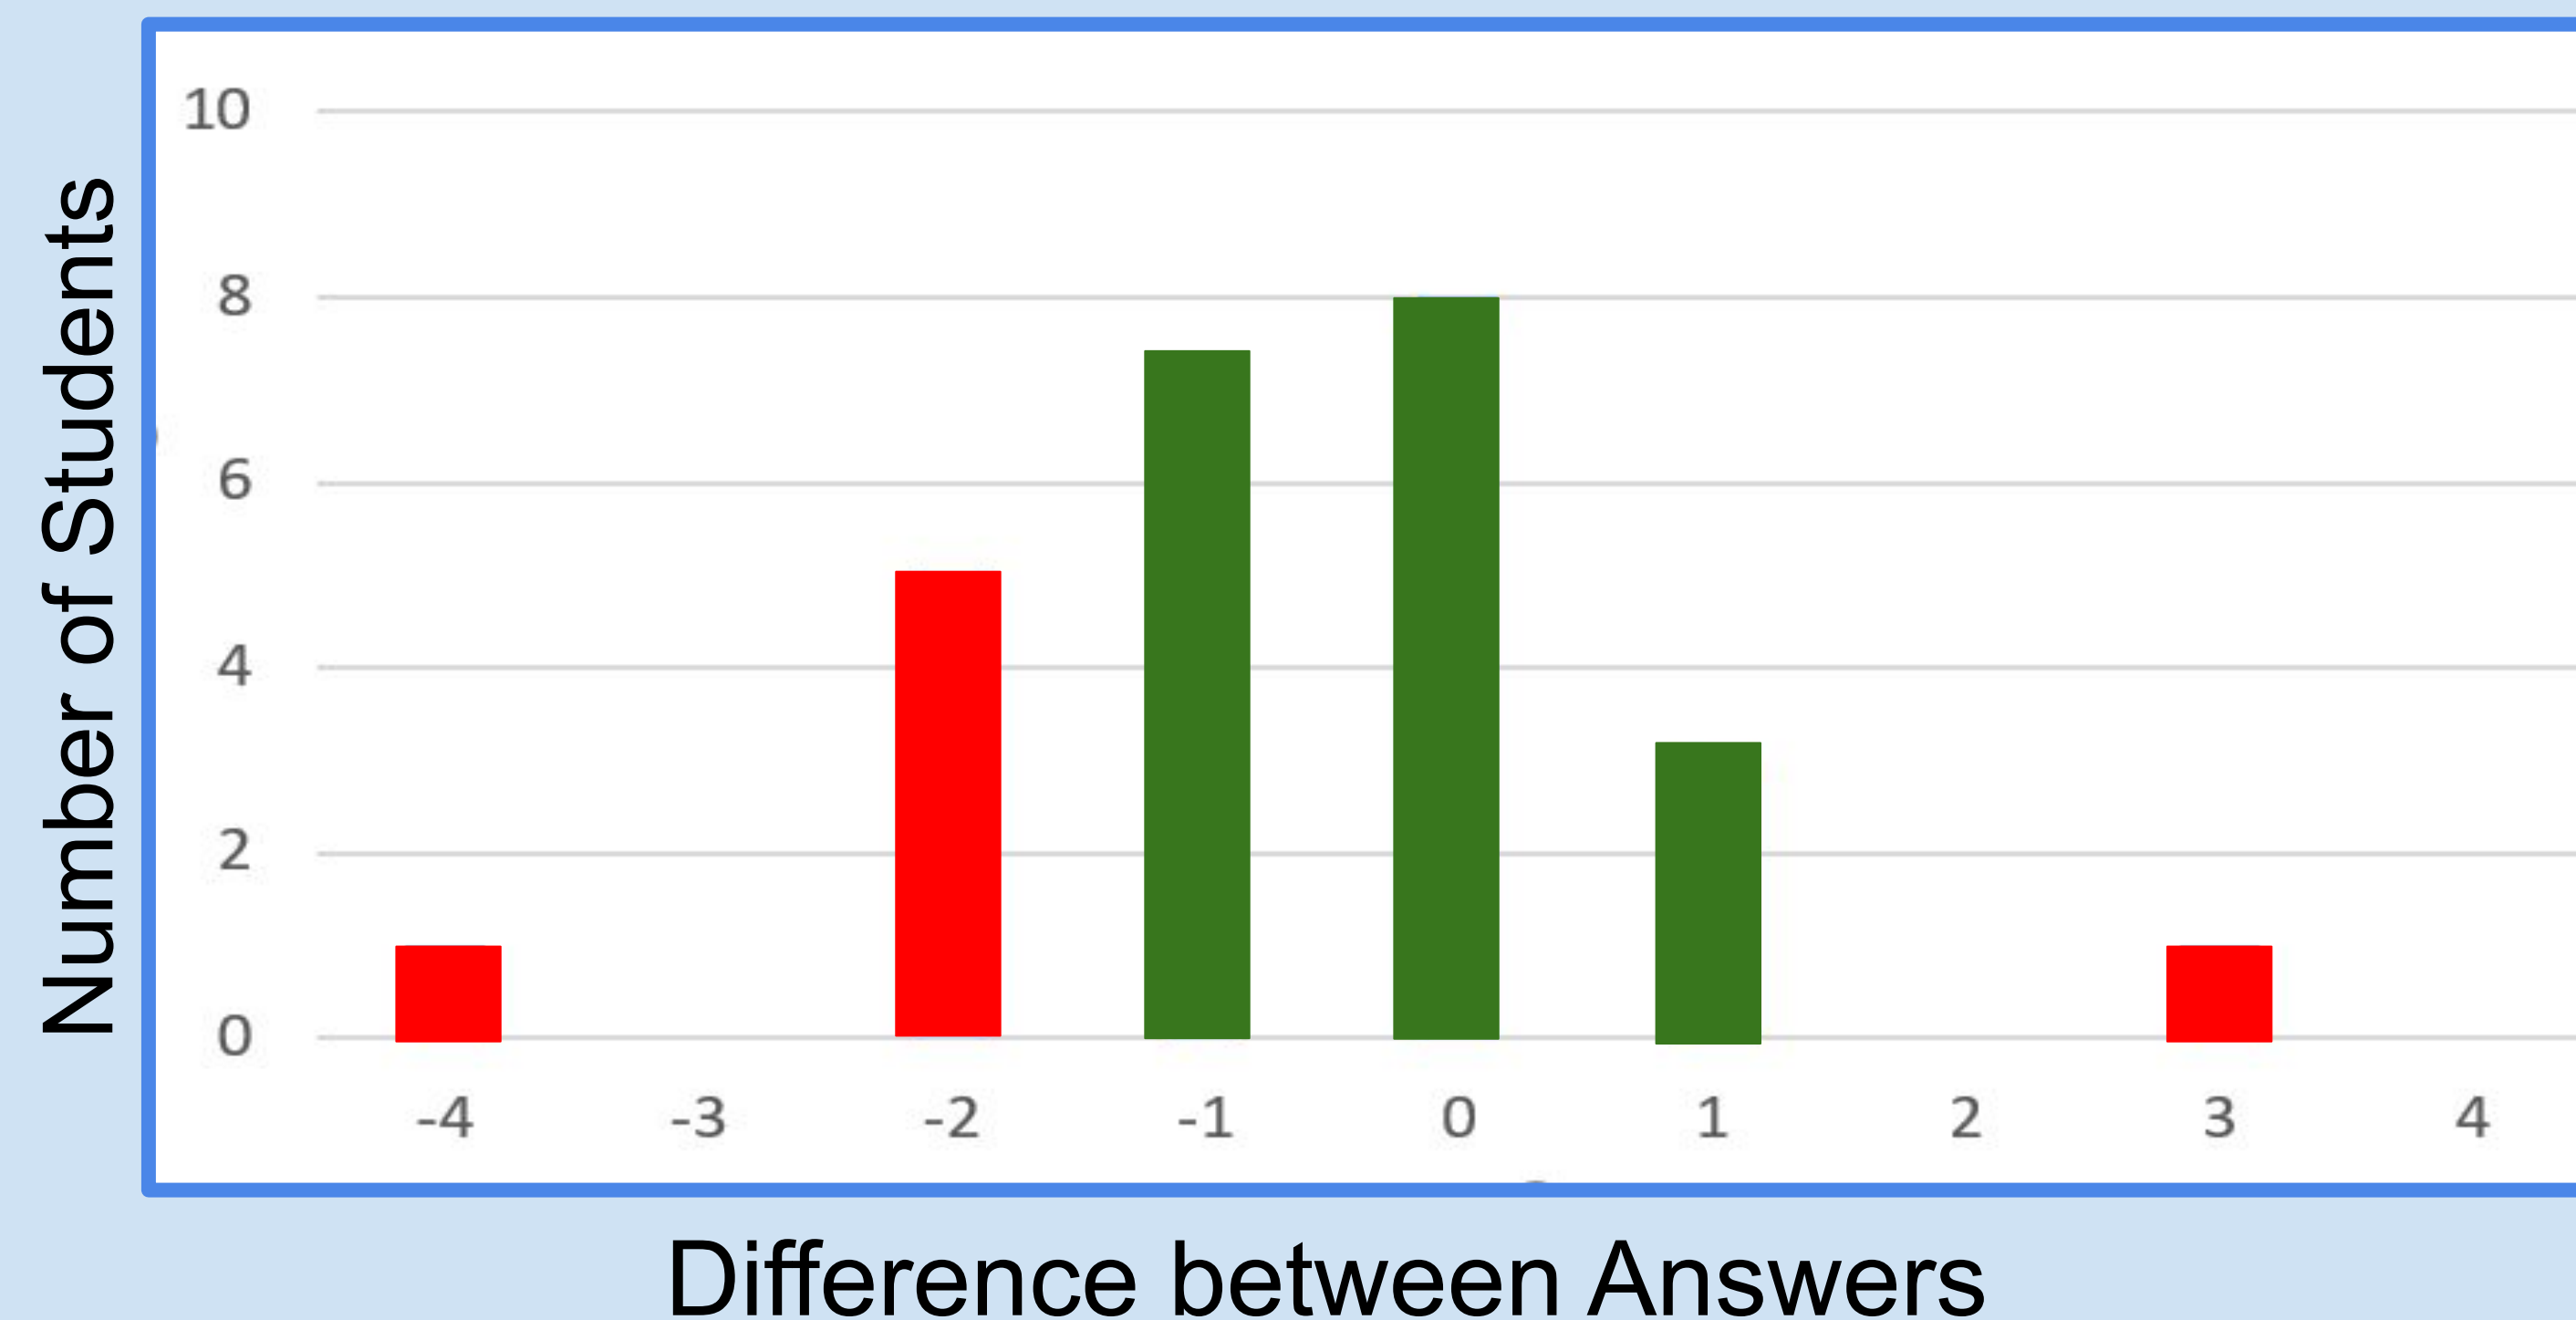

What Teachers Think of the Students 1-5

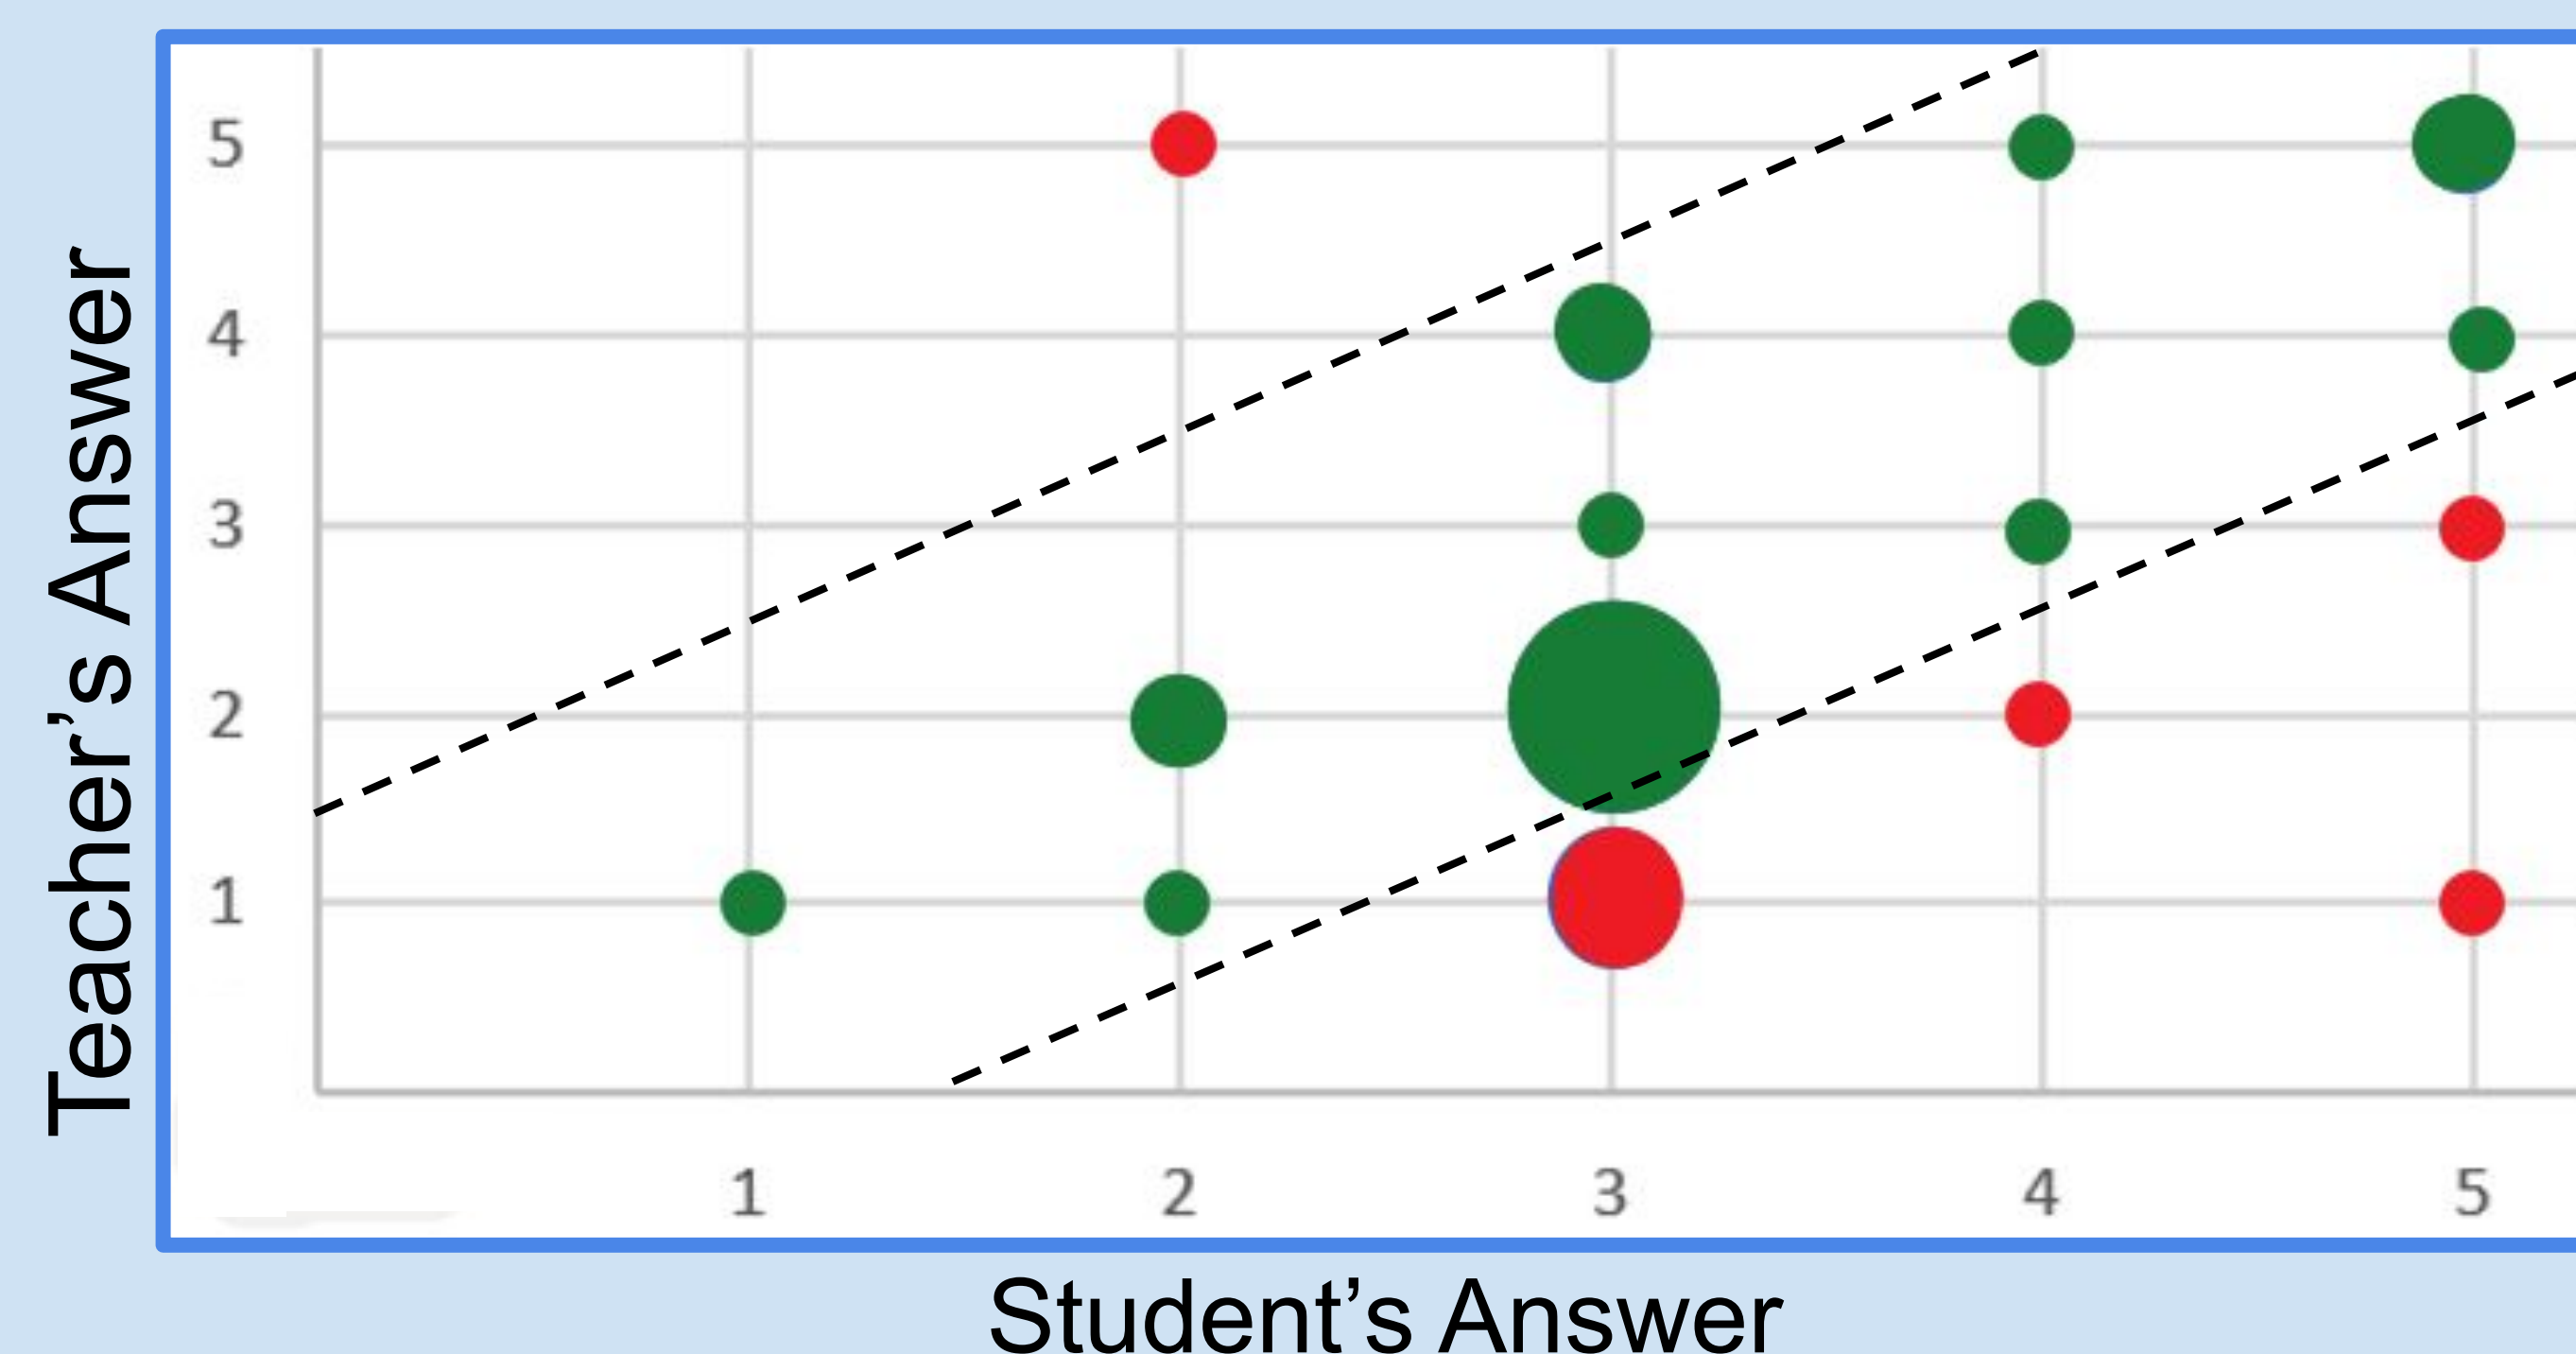

Conclusion - Students believe that they act more extroverted than they truly do in the classroom.

Difference Between the Teachers and the Students Answers
